

Objective

The Healthcare Operational Research (HOPER) graduate school aims at providing advance training regarding both, problems and solution approaches, in the field of healthcare operational research. Speakers will discuss challenges in implementation and present strategies to engage stakeholders during the different stages of the research process. Participants will have the opportunity of having feedback from leading experts in the field and building a collaboration network.

Young researchers, post-docs, qualified M.Sc. and Ph.D. students, and both academic and healthcare professionals are invited to participate in the Healthcare Operational Research graduate school, HOPER. The 2022 edition includes six speakers on a diverse set of OR applications on healthcare, such as capacity management, emergency medical services, homecare operations and hybrid simulation.

Speakers

Valérie Bélanger	HEC Montréal
Sally Brailsford	University of Southampton
Erwin Hans	University of Twente
Nadia Lahrichi	Polytechnique Montréal
Fermin Mallor	Universidad de Navarra
Angel Ruiz	Université Laval

Call for Contributions

We invite the community to participate in HOPER attending the school and presenting their works. To attend HOPER all participants must submit a curriculum vitae (CV). Additionally, to present their works and to have the opportunity of having feedback from our speakers and healthcare professionals, all participants may submit an abstract of 300 words for presentation. The presentation and feedback will be held on a pitch session. If the abstract is accepted, at least one author must attend HOPER and participate in the pitch session. Please submit your CV and/or your abstract in the following link: <https://easychair.org/conferences/?conf=hoper2022>

Important Dates

August 31 st , 2022:	Abstract and CV submission deadline
September 15 th , 2022:	Notification of acceptance
October 14 th , 2022:	Deadline for early registration

Chairs, Scientific and Organizing Committees
